HEAVY ORE SHIPMENTS GOING FROM LUNING

OVER 600 TONS A WEEK FROM COPPER CAMP IS REPORTED

Ore shipments, together with lumber and other commodities, to and from the state of Nevada have been so heavy in the past six weeks that the Southern Pacific and other railroads are handicapped by a car shortage. This is not alone the case as other railroads throughout the United States are troubled in a similar manner.

Mining activities in the state have greatly increased freight traffic. Outgoing trains carry tons of ore and in coming traffic bears mining equipment and supplies.

Conservative estimates are that the district of Luning will send out this year over 30,000 tons of low grade copper ore. Battle Mountain and Palsade will ship 12,000 to 15,000 tons of ore. And very heavy shipments will go from Lovelock, Winnemucca, Beowawe, Carlin, Elko, Colbre, Montello, Tonopah and Goldfield.—Reno Gazette.

When Your Eyes Need Care

Use Murine Eye Medicine. No Smarting—Feels Fine—Acts Quickly. Try It for Red, Weak, Sore Eyes and Granulated Eyelids. Murine is compounded by our Oculists—not a "Patent Medicine"—but used in successful Physiological Practice for many years. Now dedicated to the Public and sold by Druggists at 50c per Bottle. Murine Eye Salve in Aspic Tubes, 50c and 25c. Write for Book of the Eye from Murine Eye Remedy Company, Chicago. Ad.

BUSY IN TWO PLACES.

Uncle Sam: "Don't you know my army is busy in Mexico?"—Carter in New York Evening Sun.

SYMPATHY GIVEN TO THOMAS ULAND

Mrs. Thomas Uland, wife of an engineer of the Sand Grass, who lives in a pretty bungalow on the Goldfield road, died this morning at the county hospital where she was a private patient. The circumstances of the death are pathetic especially as the deceased was a young woman in the prime of life and gifted with a vigorous constitution and blessed with a loving husband. Following the birth of a baby last week the mother developed a species of blood poisoning entirely different from any precedents known to medical science. The complication was induced by rheumatism and neuralgia which baffled treatment until the patient expired this morning. The affection set in two days before the birth of her child which died soon after. Deceased was 24 years of age, and before her marriage was Miss Rose A. Stripling. A sister, Mrs. Jack Nicholas, resides in Tonopah. Funeral services will be conducted at the Presbyterian church Thursday at 4:30 o'clock and the body will be taken Friday morning for interment at the old home in Auburn, Cal.

SINKING OF THE WINZE ON THE RESCUE EULA

EAST DRIFT BEING ADVANCED AND SINKING OF WINZE RESUMED

The head work around the winze from the 950 level of the Rescue-Eula has been completed and sinking resumed several days ago. Work was resumed Sunday night in driving the east drift. All the faces including the raises, are in good ore. The highest raise, No. 2, is now up 145 feet. An intermediate to connect with No. 1 raise has been begun. Extraction for installation of the new compressor is going on.

Where Are They? Where were those musical children of yesterday whose musical education was complete when they had learned to play "The Maiden's Prayer" and "Monastery Bells"?—Life.

I'll bind myself to that which, once being right, will not be less right when I shrink from it.—Kinsler

PILOTS FIRST CAR OVER THE SUMMIT

TONOPAH MAN FORCES THROUGH SNOW AND OPENS SIERRA-VILLE ROAD

N. L. Shade of Tonopah arrived in Reno last evening, having piloted the first car over the Sierraville route this season, says the Reno Journal. Shade, driving an Overland, spent a great portion of the day shoveling snow and performing manual labor. He left yesterday morning from Sierra City, Cal., experiencing his greatest trouble with snow drifts between that point and Staley. Between Staley and Sierraville the road was in fairly good condition which made up considerable lost time through the Lemmon canyon. Shade has been motoring through Old Mexico and came north after a brief stay in San Diego. He expects to return to Tonopah within a few days.

HALIFAX SHIPPING 150 TONS EVERY WEEK

NEW INTERMEDIATE LEVEL EXPECTED TO TOP THE VEIN IN FEW DAYS

Shipments of fifty tons every other day from the Halifax continue to be made. Stopping from the 1241, known on the company map as 1217, is being continued. The new intermediate started from the winze a few days ago, will soon top the ore at a higher point, improving ventilation.

The north crosscut from the east crosscut on the 1300 has been started and in about a week's time a raise will be started to intersect the vein. West and east crosscuts are being driven. Raises are to be put up at suitable places. The work of boxing the water on the 1700 level continues satisfactorily and will probably be completed by the end of the month. This will materially reduce the temperature in the working.

Service and Responsibility at Lundlee Bros.

Remedy For Anger. The greatest remedy for anger is delay. Beg anger to grant you this at the first, not in order that it may pardon the offense, but that it may form a right judgment about it. If it delays it will come to an end. Do not attempt to quell it all at once, for its first impulses are fierce. By plucking away its parts we shall remove the whole. We are made angry by some things which we learn at second hand and by some things which we ourselves hear or see. Now, we ought to be slow to believe what is told us. If you were about to give sentence in court about ever so small a sum of money you would take nothing as proved without a witness, and a witness would count for nothing except on his oath. You would allow both sides to be heard; you would allow them time.—Seneca.

Curious Request. A doctor in the country received one day a letter from an old woman asking for a bottle of cough mixture for her husband, ending with the postscript: "Please, sir, don't make it too strong, as the poor man has only got one leg."—London Tit-Bits.

Different From Her Ma. He—Why is it that there's never a match in this house? She (curly)—I can't make matches. He—That's strange. Your mother could.—Boston Transcript.

JUNIOR PROM BALL IS WELL ATTENDED

YOUNG FOLKS DANCE MERRILY UNTIL PARTING STRAIN SOUNDED AT MIDNIGHT

Under a canopy of purple, white, lavender and gold more than 200 couples made merry last night at the Junior Prom held in the Airdome. The mysterious, weird and entrancing notes hypnotized the dancers until after midnight.

Promptly at 9 o'clock the musicians struck up a lively tune and, with John Cuddy, president of the Senior class and Vine Shields, president of the Juniors, leading the grand march, the gorgeous affair burst forth with an army under command of Gen. J. Joy, shattering gloom and his companions to the winds.

The latest styles of dresses were worn by the devotees of the daisant. The renowned dressmakers of Paris, New York and San Francisco exhibited their skill and ability in transforming the gray and pallor of the desert into a magnificent blending of color, rivaling King Aurore Borealis of the frozen north. Lucille Duff Gordon, Madame Marie Le Blanc and Fille de Charmant rendered their latest styles and under the blaze of high power electric lights the review was a scintillating spectacle.

The senior colors, purple and white commingled themselves with those of the juniors, lavender and gold. Palm leaves, especially imported from the wilds of Egypt, graced the walls, lending oriental charms to the oasis of the desert.

The members of the decorating committee were Harold Bowler, John Luce, Louise Dillworth, Aileen Dalzell, Blanche Collins, Luella Roberts, Marion Luce, Ella Perry, Lavina Shields, Gracella Rountree, Lulu Sloan, Howard Coulter and John Martin Cuddy. It is due to the energy and work of this committee that the hall was as beautiful as it was, which deserves much praise.

Not only were the Tonopah people in attendance, but also a large crowd from Goldfield and several auto loads from Millers. Ten of the largest cars that ever whizzed over the desert roads conveyed the visitors from the gold camp.

If you have experienced trouble with burnt tubes, let us show you a perfect repair job. Lundlee Bros. if

"THE AERIAL MELLE"

RUSH TO LUNING IN FULL BLAST

"Sodaville, Mina and Luning are very prosperous," said Frank Cavanaugh in talking to a Bonanza reporter. "Every one is very optimistic over the condition of affairs. Every day brings new inhabitants and the people of the several towns are in sore straits to cope with the situation. Beds are at a premium and unless one has engaged a room many days before, it is hard to find accommodations."

"The modern prospector no longer packs his pans, grub and outfit on the back of his trusty steed, the burro, but looks forward to the economy, the speed and the comfort of the automobile. Tremendous prospecting is going on in this district. Visitors are astonished to witness such operations and before they are aware of the fact, they too have the fever and are excited over any new news of discoveries. "Over 200 tons of copper ore are shipped daily from Luning. In the town of Sodaville the Atkins-Kroll company has almost completed a new mill which they expect to have running at full capacity within a few weeks. Their payroll includes 160 men."

"New buildings are being erected as fast as men can nail the boards together in the camps of that district. A drug store, owned by a Mason City man, with a complete stock, will open in Mina in a few days. Boarding and rooming houses are in great demand and the completion of these buildings is of utmost interest to all visitors and inhabitants. Food and supplies continue to flow in by parcel post and by the car load.

"Doctor F. C. Paché, county physician in Mineral county and the surgeon of the Southern Pacific railroad, is deeply interested in that country, owning a large amount of territory and possessing a score or more good claims with pay dirt in sight. As a byword to the workman, it might be well to say, that unless he is in for himself with money to back him, it is best that he stay away, for the camps have already a surplus of wage earners."

GIRLS BECOME SAFFRON HUED MAKING MUNITIONS

(By Associated Press.) LONDON, June 12.—"Canaries" has become the popular term for girl munition workers whose skin and hair become yellow from working over the fumes in certain shell factories of England. Their patriotism is so strong that they do not hesitate to disfigure themselves for the sake of the men behind the guns. "Canaries" are also better paid than the girls who do not run the same risk.

LUTHERAN SERVICES

Regular Lutheran services will be held at the Presbyterian church this evening at 8 o'clock. The sermon will be based on Matthew 10:16-22. Theme of discourse: "The Holy Spirit's Valuable Assistance in Our Confession of Christ." Miss Hazel Perry has consented to preside at the organ and Mrs. Arthur Neth to render one of her beautiful solos. You are invited to attend. FREDERICK H. NENZEL, Lutheran Pastor.

Mothers of boys lose their voices saying: "Go wash your hands."—Tonopah (Kan.) Capital.

PERSONAL

C. L. McCool and wife departed this morning for San Diego where they will visit the fair for the next month.

E. H. McMURRAY, of Milwaukee, left this morning for San Francisco. Later he will join his wife in Wisconsin for the summer.

MRS. KATHERINE SMITH and Mrs. Maud Coulter were passengers this morning for Reno and the Sierras where they will spend their vacation.

MICHAEL CAHALAN and Dol Hammond, proprietors of the Goldfield hotel cafe motored over from the south last evening and returned after a brief visit.

MRS. T. THOMAS is visiting her daughter Electa at Colfax, Cal., where she will remain for a few weeks and then continue on to Oakland for a two month's visit.

J. W. GUILFOYLE, manager of the Lothrop Davis company, was a passenger this morning for San Francisco. He expects to be absent for a couple of weeks.

DON ACREE, Charlie Cavanaugh, Samuel Westhorpe, Carl Myers, Misses Margaree O'Brien and Vera Myers were motorists from Millers last night to take in the largest social affair of the season.

ALEXIS TETRAULT, who has been engaged for the past ten days making locations in the new district of Camp Matt, returned home yesterday. He reports that his associate Cirac, one of the founders of the district was taken seriously ill and removed to Luning.

MR. AND MRS. E. C. HALL will leave by auto tomorrow morning for Los Angeles to attend the Knights Templar triennial convocation. After the convocation they will motor down to San Diego and spend a month taking in the sights of the coast.

MISS ANITA EGAN, Clara Handshaw, Kathleen Daley, Blanche Davis, Mayme Houghton, Nora Redington and Isabel Morrison, with Roy McCall, Orin Budge, Russell Budge, Theodore Patton, Ike Madden, Frank Cavanaugh and John Morrison motored over last night from Goldfield to attend the junior prom.

Could Eat as Well as Write.

Dr. Johnson was a great tea drinker. It is stated that he would drink thirty or forty cups of tea during an evening! Yet he lived to a fair age and apparently suffered no very ill effects from his great thirst for tea. He was one of the most notable of feeders and ate his food in what we should now think rather a piglike fashion, making great grunts and groans of satisfaction or enjoyment the while and going the round of the menu very thoroughly.

Charles Reade, the famous novelist, is reported to have been one of the strangest feeders on record. A contemporary, writing of his meals at the Garrick club, says: "He took a cauliflower, flanked by a jug of cream, as his first course, and a great salad to follow, washed down by curious drinks of the shandygaff order. He would drink coffee associated with sweets, black pudding and toasted cheese, to the amazement of any onlooker."

Survival of the Fittest Among Birds.

The struggle of life among the birds and other wild creatures is so severe that the feeble and malformed, or the handicapped in any way, quickly drop out. Probably none of them ever dies from old age. They are cut off in their prime. A wedding out process goes on from the time they leave the nest. A full measure of life, the perfection of every quill and feather and unerring instinct carry them along. They are always in the enemy's country; they are always on the firing line; eternal vigilance and ceaseless activity are the price of life with them. The natural length of life of our smaller birds is calculated to be eight or ten years, but probably not one in a thousand reaches that age. Not half a dozen times in my life have I found the body of a dead bird that did not show some marks of violence.—John Burroughs in Harper's Magazine.

BUTLER THEATER

A double bill will be presented on the Butler program this evening consisting of two big vaudeville acts in addition to the regular picture program which is an exceedingly fine one, the single reel being a Burton Holmes travel picture "Up and Down the Pasig River" (the Thames of the Philippines), pointing out and explaining all points of interest, the feature being Mary Pickford, the idol of the screen, in "Madame Butterfly," adapted from John Luther Long's classic, which has already become familiar through the medium of the opera, novel and play, and is considered one of the best productions in which this popular little actress has ever appeared. The vaudeville portion of the program will be presented by "The Aerial Mells," known to fame as "The Marvelous Mells." Lady and gentleman acrobats and gymnasts in a remarkable exhibition on the flying trapeze and Spanish rings. Feats of strength, and a study in physical culture. This team, who have recently come from the larger circuits, and who have displaced their skill in Ringling Brothers Circus, come highly recommended as being one of the best gymnastic offerings ever presented. The other vaudeville act will be presented by Jolly "Doc" Brady as Uncle Jason Harrison from Squash Hollow in his birth-provoking, quick-change specialty. The first show will start at 7 p. m., the second at 9 p. m. Tomorrow, Napoleon and Sally, the educated Chimps in a one-reel animal comedy and "A Woman's Power" featuring Mollie King. Also the two vaudeville teams at both matinee and night shows in an entire change.

CATCHES STRANGE BEAST.

Looks Like a Fox and Climbs to Top of Trees.

Albert Lea, Minn.—A new and strange animal was discovered in Bancroft township by Emil Halvorsen, who was hunting.

It appeared larger than a fox and when pursued jumped about the trunk of a tree and was soon in the topmost branches. Later in the day another of the species was captured.

The animal resembles a fox, has light red fur about the neck and head, but the rest of the fur is light gray, with a jet black stripe down the back. It is thought the animal is a hybrid or else has strayed here from its native haunts.

The man who talks too much about his duty isn't doing it.—Atchison (Kans.) Globe.
